Established in San Diego, CA in 2009, Chula Seafood is a family owned + operated fishery that purveys high quality, sustainable, fresh fish focusing on the Pacific Coast. The boat, CHULA, specializes in harpooned Swordfish in addition to species off the California Coast. After years of commercial fishing, the family decided to take the plunge into wholesale distribution in California, delivering fresh, Chula caught fish. In August of 2015, the family recognized the need for fresh fish in the desert and began delivering straight from the boat to Arizona. wholesale + retail
